EXPERIENCE

Entrata, Lehi, UT

Aug 2022 – Feb 2025

Full Stack Web Developer

Developed the marketing site from the ground up, enhancing editor functionalities for the marketing team.

- Using React, Gatsby, JavaScript, and Contentful, developed a library of modern front end components and web pages, which resulted in significantly improved conversion rates
- Migrated large volumes of legacy content by developing custom scripts, ensuring zero data loss
- Developed a logic-based editor for content creators, enabling efficient web page customization and reducing campaign creation time by 80%
- Implemented continuous deployment strategies, enabling seamless concurrent content updates without disrupting the production environment
- Provided comprehensive support and maintenance for the site, troubleshooting issues and enhancing user experience
- Migrated the marketing site to Webflow, continuing to develop and support on the Webflow platform
- Developed pixel-perfect interactive web pages from Figma designs

Seating Innovations, Lindon, UT

Aug 2019 – April 2021

Welder/Fabricator

Fabricated and assembled seating systems, ensuring quality standards for commercial application.

- Executed custom design plans to fabricate tailored seating systems for each client
- Enhanced production quality by 20%, significantly reducing product waste
- Consistently achieved monthly production quota of 100+ specialized furniture items
- Operated heavy machinery safely with zero on-site incidents

LogMeln, Inc, Lindon, UT

June 2017 – Oct 2019

Tier 2 Technical Support

Provided technical support to resolve VOIP and network issues, leading to improved customer satisfaction.

- Supported configuration for networking devices and VOIP phones, enhancing enterprise communication systems
- Provided remote troubleshooting for 125+ customers weekly, resolving issues with phone systems and networks
- Managed case escalations from Tier 1 support, addressing and resolving more complex issues
